

ABOUT

MSc student in Data Science and Engineering with strong foundations in statistics, machine learning and software development. Interested in NLP, LLM-based systems and reliable data integration.

EDUCATION

- **MSc — Data Science and Engineering** Oct 2024 – Present
Politecnico di Torino *Turin, Italy*
 - **Relevant Coursework:** Machine & Deep Learning, Mathematics for ML, Numerical Optimization, Distributed Architectures, Deep NLP.
- **BSc — Management Engineering** Sep 2021 – Mar 2025
Politecnico di Torino *Turin, Italy*
 - **Relevant Coursework:** Statistics, Econometrics, Operations Research, OOP, Algorithms.
 - **Thesis:** Markowitz Portfolio Optimization in Python: preprocessing, PCA-based analysis, efficient frontier and backtesting.

EXPERIENCE

- **Telematica Informatica S.r.l. — Data Engineer** Sep 2025 – Present
Intesa Sanpaolo — with Accenture *Full-remote*
 - **Data Integration & Validation:** Designed Python/SQL pipelines for cleaning, reconciliation and KPI generation on structured datasets.
 - **Statistical Support:** Implemented regression-based forecasting and validation checks ensuring reproducibility.
- **Telematica Informatica S.r.l. — Software Engineer** Mar 2025 – Sep 2025
Gruppo Centro Paghe *Turin, Italy*
 - **Backend & APIs:** Developed Node.js services and REST APIs for workflow automation and dashboards.
 - **LLM / RAG System:** Built a retrieval-augmented generation assistant (embeddings + FAISS) for internal document querying.

PROJECTS

- **News Classification Pipeline (2026):** End-to-end NLP classification using TF-IDF, logistic regression and tree-based models with leakage-aware cross-validation and error analysis.
- **Federated Learning Framework (2025):** Distributed neural network training (DINO ViT) with non-IID clients and experiment tracking via W&B.
- **Numerical Optimization Project (2025):** Implemented Modified Newton and Newton-CG methods analyzing convergence and scalability.

SKILLS

- **Programming:** Python, SQL, JS/TS, Java, C++
- **Data Science:** Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter, regression, k-NN, CART, neural networks
- **NLP / LLMs:** TF-IDF, embeddings, RAG, FAISS, unstructured text processing
- **Data Engineering:** data cleaning, validation, integration, Spark
- **Tools:** Git, Docker
- **Languages:** Italian (native) · English (C1) · French (C1)
